Research Papers

Colloid dynamics and transport of major elements through a boreal river — brackish bay mixing zone
Ö. Gustafsson, A. Widerlund, P.S. Andersson, J. Ingri, P. Roos and A. Ledin 1

Distribution and sources of organic biomarkers in arctic sediments from the Mackenzie River and Beaufort Shelf
M.A. Goñi, M.B. Yunker, R.W. Macdonald and T.I. Eglinton 23

Benthic fluxes and pore water distributions of dissolved free amino acids in the open Skagerrak
A. Landén and P.O.J. Hall 53

Lipids of four boreal species of calanoid copepods: origin of monoene fats of marine animals at higher trophic levels in the grazing food chain in the subarctic ocean ecosystem
H. Saito and Y. Kotani 69

Onboard-ship redox speciation of chromium in diffuse hydrothermal fluids from the North Fiji Basin
S. Sander and A. Koschinsky 83

In-situ spectrophotometric pH measurements: the effect of pressure on thymol blue protonation and absorbance characteristics
A.E. Hopkins, K.S. Sell, A.L. Soli and R.H. Byrne 103

Variation of size-fractionated Fe concentrations and Fe(III) hydroxide solubilities during a spring phytoplankton bloom in Funka Bay (Japan)
K. Kuma, A. Katsumoto, N. Shiga, T. Sawabe and K. Matsunaga 111

Biogenic barium in suspended and trapped material as a tracer of export production in the tropical NE Atlantic (EUMELI sites)
C. Jeandel, K. Tachikawa, A. Bory and F. Dehairs 125

The distribution of colloidal and particulate bioactive metals in Narragansett Bay, RI
M.L. Wells, G.J. Smith and K.W. Bruland 143

Kinetics and equilibria of the interactions between diethylhexyl phthalate and sediment particles in simulated estuarine systems
J.L. Zhou and Y.P. Liu 165

Announcement

Research Papers

Photoproduction of nonmethane hydrocarbons (NMHCs) in seawater
D.D. Riemer, P.J. Milne, R.G. Zika and W.H. Pos 177

Sources of Cd, Cu, Ni and Zn in Portuguese coastal waters
M.-H. Cotté-Krief, C. Guieu, A.J. Thomas and J.-M. Martin 199

Heavy metals in seawater, marine sediments and corals from the Townsville section, Great Barrier Reef Marine Park, Queensland
G. Esslemont 215

The role of reduced sulfur species in the coalescence of polysaccharides in the Adriatic Sea
I. Ciglenečki, B. Ćosović, V. Vojvodić, M. Plavšić, K. Furić, A. Minacci and F. Baldi 233

Alkenone fluxes and anomalous $U_{37}^{K'}$ values during 1989–1990 in the Northeast Atlantic (48°N 21°W)
A. Rosell-Melé, P. Comes, P.J. Müller and P. Ziveri 251
Chromium(VI) distributions in the Arctic and the Atlantic Oceans and a reassessment of the oceanic Cr cycle
W. Sirinawin, D.R. Turner and S. Westerlund 265
The seasonal variations of dimethyl sulphide and carbon disulphide in surface waters of the Venice lagoon
I. Moret, A. Gambaro, R. Piazza, C. Barbante, C. Andreoli, F. Corami and G. Scarponi 283
Atmospheric Pb and Cd input into the Baltic Sea: a new estimate based on measurements
B. Schneider, D. Ceburnis, R. Marks, J. Munthe, G. Petersen and M. Sofiev 297
Mechanisms of pore water organic matter adsorption to montmorillonite
T.S. Arnarson and R.G. Keil 309
Application of fluorescence spectroscopic techniques and probes to the detection of biopolymer degradation in natural environments
C. Arnosti, S.C. Keith and N.V. Blough 321
Comments on "Calibration of a chalcogenide glass membrane ion-selective electrode for the determination of free Fe^{3+} in seawater: I. Measurements in UV photooxidised seawater" by De Marco and Mackey (Marine Chemistry 68 (2000) 283–294)
C.M.G. van den Berg 331
Reply to "Comments on 'Calibration of a chalcogenide glass membrane ion-selective electrode for the determination of free Fe^{3+} in seawater: I. Measurements in UV photooxidised seawater' by De Marco and Mackey (Marine Chemistry 68 (2000) 283–294)" by Constant M.G. van den Berg
R. De Marco and D.J. Mackey 333
